

A professional School and Landscape Grounds Maintenance Company

Established in 1994 we are a family owned and run business based in North Milton Keynes.

We have built our business on our ability to form and maintain partnerships with our clients based on trust, with our key strengths being our commitment to client satisfaction and the continuous improvement of our service.

Our certification to ISO 9001:2008 ensures quality of service is guaranteed.

We have a genuine commitment to the environment and in line with our ISO 14001:2004 certification

we have developed common sense procedures to ensure we have a positive impact on the local area.

All our staff are CRB checked and fully trained in health and safety procedures as required by our certification to ISO 18001:2007

Our teams of qualified staff have extensive knowledge in maintaining school grounds and all types of sports pitches throughout the year, specialising in the following areas:

- Regular grounds maintenance, to include grass & hedge cutting
- Maintenance of sports pitches
- Sports pitch line marking
- Landscaping
- Creating wildlife & sensory gardens
- Vegetable gardens
- Lawns & shrub beds
- Plant displays
- Pond maintenance
- Conservation areas

Eco-Schools

The government in England wants every school to be a sustainable school by 2020. Eco-Schools is an international award programme that guides schools on their sustainable journey, providing a framework to help embed these principles into the heart of school life.

Our experience and qualifications can help your school towards achieving an Eco-Schools Award, we are experienced in working in the school environment, we also understand and cater for the requirements of Special Educational Needs schools.

Environment

In recognition of our commitment to the preservation and protection of the environment, Marcus Young Landscapes is proud to hold certification to ISO 14001:2004.  We work closely with our customers, suppliers and other local businesses to ensure that our actions have a minimal impact on the environment and wherever possible make a positive impact on our surroundings.

We are a registered waste carrier with the environment agency and always strive to ensure responsible disposal or re-cycling of waste materials, for example:

-  **Grass cuttings are re-used for composting**
-  **Wood chippings are re-used for bridle paths and horse paddocks**
-  **Glass, paper & plastics are separated on site for recycling**

Quality Assurance

Through the adoption and maintenance of the ISO 9001:2008  Quality management system, the employees of Marcus Young Landscapes Ltd have committed themselves to providing an excellent standard of customer service, which is measurable and involves continuous improvement.

This helps to ensure a service that meets your quality expectations and is provided in a way, which ensures the health and safety of the company's operatives, interested third parties and members of the public and is delivered in a way to ensure that at all times the best interests of the school, wider community and the environment are observed.

By partnering with a company which has been awarded ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 you are assured that all aspects of the work we carry out will be conducted in accordance with the company's certified policies, procedures and processes.

Health & Safety

In conformance with our certification to BS OHSAS 18001:2007 and SMAS Safe contractor   Marcus Young Landscapes Ltd is committed to pro-active health & safety management as an integral part of its business. All staff receives ongoing health & safety training and our policies, procedures and training currently exceed all the requirements of ISO 18001. In addition the company is subject to six monthly audits carried out by an UKAS registered body to ensure compliance.
